27th February 2015

Dear Parents and Carers,

SCIENCE AND ICT WEEK 2nd - 6th MARCH - MAKE A ROBOT!

We are setting the children a challenge to design and make a robot! The robot should be brought into school next Friday 6th March 2015 at the start of school.

Let your child use their imagination to design a robot that nobody has ever seen before! Robots are used for lots of things – building cars, painting, doing housework or even as pets. Bring in the designs or ideas with the robot and write down or tell us what amazing things it can do. The robot can be made from any type of material - recycled, found or new. Please do not use or send in anything too valuable or too big – we have to fit them in the classrooms and still have space for learning!

There will be a judging process and winners will be announced and certificates awarded on the day in assembly.

Start creating and don't forget to give your robot a name! We are looking forward to seeing and hearing all about them.

Yours sincerely,

Frances Foulsham

Science Coordinator
